Malaysian Battery Technology Association Address

What is the battery Tech Association?
The Battery Tech family provides valued association across key Electric Vehicle (EV) battery markets and niches. Together,we deliver highly customised content that meets our members most sophisticated needs. Welcome to The Battery Tech Association. The leading hub for all things battery manufacturing and EV charging.

Who needs to comply with Malaysia's battery safety regulation?
For the Malaysian battery market, all product owners, local manufacturers, importers and retailers involved in battery re-packaging activities need to comply with Malaysia's Battery Safety Regulation underlined by the Ministry of Domestic Trade and Consumer Affairs (KPDNHEP) and SIRIM.

What are Malaysia's key challenges as a battery manufacturer?
However,the agenda boils down to a few key challenges,for example,economy of scale to attract the industry's key players to manufacture in Malaysia. On the other hand,as a battery manufacturer,Malaysia needs to factor in the added responsibility of managing waste from battery usage and end-of-life properly.

Will gotion set up a battery pack assembly plant in Malaysia?
22 Aug 2024 Chinese battery maker Gotion High-Tech Co Ltd (Gotion) is planning to set up a battery pack assembly plant in Malaysiato boost its presence in Southeast Asia,said its senior vice-president and Asia-Pacific business unit president Dr Qian Cheng.

How can Malaysia improve the battery industry?
In many cases, Malaysia can enhance its capability by promoting local resources and know-how in battery-manufacturing processes and critically, batteries' terminal integration. In short, the race to the future of the battery industry has already begun. This is the overall picture of the progress and opportunities of Malaysia's battery industry.

Should Malaysia be a battery manufacturer?
On the other hand, as a battery manufacturer, Malaysia needs to factor in the added responsibility of managing waste from battery usage and end-of-life properly. Forward integration along with a fitting policy are what the industry needs to address the usage of locally made batteries.
