

Where can I buy a 48v battery?

Buy 48v Battery and get the best deals at the lowest prices on eBay! Great Savings & Free Delivery / Collection on many items

How long does a 48v battery last?

Some batteries can even last well over 100 kilometres, depending on certain conditions. Here are some factors that can affect the range of your battery: Battery capacity: Many 48V batteries offer between 17.5Ah to 20Ah capacity with differing rates of discharge. They can also range from 750W to over 1600W of battery power.

Can a 48v battery be used on an e-bike?

Power your E-bike with one of the many 48V battery packs available on eBay. How long of a range can a 48V battery offer? The main factor that determines how long your battery will last depends on how often you pedal and use the throttle on your E-bike.

How many times can a 48v battery be recharged?

Most 48V Li-ion battery packs can be recharged approximately 500 times before it begins to lose capacity. Some batteries are designed to handle up to 1200 charges. Since models vary, it's important to check product descriptions before buying your 48V battery on eBay. Buy 48v Battery and get the best deals at the lowest prices on eBay!

How long does a 48v battery take to charge?

Many 48V batteries come with fast-charging technology, which allows them to charge fully in just a couple of hours. Standard charging typically takes five to eight hours to obtain a full charge. Refer to the manufacturer site for details regarding specific makes and models.

What factors affect the range of a 48v battery?

Here are some factors that can affect the range of your battery: Battery capacity: Many 48V batteries offer between 17.5Ah to 20Ah capacity with differing rates of discharge. They can also range from 750W to over 1600W of battery power. Wind: Riding against the wind causes resistance, which results in heavier use of the throttle.
