# **SOLAR** PRO. About battery company

Which battery manufacturers are revolutionizing the automotive industry today?

Like other battery and automotive manufacturers such as Tesla,Inc. (NASDAQ: TSLA),Ford Motor Company (NYSE: F),and General Motors Company (NYSE: GM),the battery manufacturers listed below are revolutionizing the automotive industry today. In this article,we will be taking a look at the 12 biggest battery manufacturers in the world.

### Who makes the most EV batteries in the world?

Chinais the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

## Is LG a battery company?

LG Energy Solution,Ltd is a South Korean battery companybased in Seoul. It is the only one of the world's top four battery companies with a background in chemical materials. In 1999,LG Chem made Korea's first lithium-ion battery. Later,in the 2000s,it supplied batteries for the General Motors Volt.

### Who makes EV batteries?

It is the largest EV battery producer globally,manufacturing 96.7 GWh in one year--a 167.5% increase. CATLworks with major car makers worldwide,creating batteries for all kinds of EVs,from small cars to trucks. They are also known for innovation,like developing safer,cobalt-free LFP batteries that are better for the environment.

### Who makes BYD batteries?

BYD Energyis the world's largest producer of iron-phosphate batteries, with over 24 years of experience. The company focuses on NCM lithium-ion and lithium iron phosphate batteries while also developing sodium-ion batteries, which are safer, cheaper, and efficient. This innovation highlights BYD's dedication to sustainable energy solutions.

### Which EV battery manufacturer has the largest market share?

According to SME Research, CATLis the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

For 100 years Saft has been specializing in advanced-technology battery solutions for industry, in space, at sea, in the air and on land in remote and harsh environments from the Arctic Circle to ...
