

Battery application scope and market trend

What is the global battery technology market size in 2021?

The global battery technology market size reached USD 105.63 Billion in 2021 and is expected to register a revenue CAGR of 9.6% during the forecast period.

What is the global battery market based on end use?

Based on end use, the market is segmented into automobiles, consumer electronics, grid-scale energy storage, telecom, power tools, military & defense, aerospace, and others. The automobile segment has emerged as the largest end use in the global battery industry, capturing over 31.0 % of the market share in 2024.

What is the segmentation of battery market?

Based on application, the market is segmented into automotive batteries, industrial batteries, and portable batteries. The industrial batteries segment emerged as the largest application globally, capturing over 35.0% of the market share in 2024.

How has the battery market changed over the years?

The Batteries Market across the world has experienced a drastic shift with the advent of electric mobility. Currently governments in many countries are putting in place strict emission standards that are subsidizing the use of EVs. This has led to an exponential growth of the need for high performance batteries.

How big is the batteries market?

Region : Global |Format: PDF |Report ID: BRI118690 |SKU ID: 16973533 The Batteries Market size was valued at approximately USD 134.62 billion in 2024 and is expected to reach USD 453.6 billion by 2032, growing at a compound annual growth rate (CAGR) of about 16.4% during forecast period.

Do battery demand forecasts underestimate the market size?

Just as analysts tend to underestimate the amount of energy generated from renewable sources, battery demand forecasts typically underestimate the market size and are regularly corrected upwards.

Reports Description. As per the current market research conducted by the CMI Market Research Team, the US Lithium-Ion Battery Market is expected to record a CAGR of 20.1% from 2023 to 2032. In 2023, the market size is projected to reach a valuation of USD 13.7 Billion. By 2032, the valuation is anticipated to reach USD 71.6 Billion.. The US Lithium-Ion Battery market is a ...

The micro battery market size is projected to reach US\$ 3228.80 million by 2030 from US\$ 773.72 million in 2022. The market is expected to register a CAGR of 19.6% during 2022-2030. Rising demand for wearable devices and ...

UPS Battery Market Insights. UPS Battery Market size was valued at USD 947 Billion in 2023 and is expected to reach USD 1.9 Billion by the end of 2030 with a CAGR of 9.9% During the Forecast Period 2024-2030.. The UPS (Uninterruptible Power Supply) Battery Market refers to the industry focused on the production and supply of batteries that provide backup power during electrical ...
