

What is a battery protection board?

IDEAL TOOL FOR BATTERY-- The protection board not only can protect your batteries, but also can prolong the longevity of your batteries. It features low power consumption, save power. **BALANCE FUNCTION**-- Lithium Battery is designed with equilibrium function to keep each cell in balance and good service life.

Can a battery protection board be custom made?

To ensure you have assembly options that will suit your needs,we can custom any required sizefor battery protection boards. We can custom any specs you required to protect the battery and make them run in good conditions. Make all your needed function and perform functional test to ensure all boards works perfectly for your devices.

What is a battery management system (BMS)?

BMS (Battery Management System) - a battery management system that is designed to monitor the status of batteries, control the process of charging / discharging the battery and protects the battery pack from short circuiting, overload, over/under voltage, over current protection.

What is a lithium battery board?

BALANCE FUNCTION-- Lithium Battery is designed with equilibrium function to keep each cell in balance and good service life. Each battery can be charged at the same level simultaneously. **APPLICATION**-- This board is mainly used for 4 series 12V LiFePO4 batteries, comes with 5P-250mm wire. Some of these items are dispatched sooner than the others.

How long does it take to ship a battery protection board?

Depends on whether you want to do customization your battery protection boards or not,and also depends on the speed of customs clearance and logistics,but we can guarantee to ship regular battery protection boards in less than 7 business days,and ship customized prototypes not more than 12 business days.

What is 2S Li-ion 20A 7.4v Protection Board?

2s Li-Ion 20A 7.4V Protection board is a small PCB mounted Lithium Battery protection module. This small and smart protection module comes with various features like Short-circuits,Over-charge,Over-discharge,Over-current protection and Balance function. It is straight forward to install and convenient to use in all your DIY portable projects.

Description: This board is a 4 string 30A 14.8V lithium battery protection board, high current protection board, 30A continuous current protection board with balance circuit **Specifications:** Working current: 30A Balanced Current: 60mA Over current: 60A Temperature range: -30 to +80 ...

BMS (Battery Management System) - a battery management system that is designed to monitor the status of batteries, control the process of charging / discharging the battery and protects ...

Balance Function: Yes Balance Turn-on Voltage: 4.18V ±0.025V Balance Current: 55mA Power Failure Protection: Yes Temperature Protection: Yes (valid when external 10K ohm NTC resistor is connected) Charge Low Temperature Protection: -7? Charge High Temperature Protection: 50? Discharge Low Temperature Protection: 70? Module ...

3s Li-Ion 8A 12.6V protection board £4.05 GBP 3s / 4s Li-Ion 200A BMS with balance & temp sensor Sold Out 3s / 4s Li-Ion 120A BMS with balance & temp sensor Sold Out

tbilisi energy storage protection board merchants - Suppliers/Manufacturers. ... The future is arbitrage, a deep dive into the merchant model: ... Grid-scale battery storage optimisation business models come under the spotlight in this presentation from Ben Irons of Habitat Energy. Points covered includ...

Lithium Battery Protection Board, 3S 12V 20A Multi-Protectional Li-ion Battery Protection Board PCB BMS Module Overcharge Overcurrent Short Circuit Protection with Balance Charging 3.6 out of 5 stars 5

Battery Protection Board, PCB Protection Board Balance, 10S 36V 30A Li-ion Cell 18650 Battery Protection BMS PCB Board With Balance Function Over-Current Protection. Features: The protection board is for 10 ...

Youmile 5PCS 2S 8A 7.4V Lithium Battery Protection Board 18650 Charger Module BMS PCB Protection Board for Li-ion Lithium Battery Cell with Nickel Strip 3.7 out of 5 stars 24 1 offer from £599 £5 99

? 35A Battery Protection Board ? - These battery protection boards" charging connector and discharging connector are separated, discharging current is 35A ? Wide Application Protection Board ? - The protection board is for 10 series cell Li-ion batteries, it can be used for ternary batteries, manganese acid batteries and cobalt acid ...

Free delivery and returns on all eligible orders. Shop 14s 40A Lithium Battery Protection Board, 3.7V 10S 11S 12S 13S 14S Li-ion Lithium Battery Charger Protection Board BMS PCB with Balance Charging 48V.

Mainly consists of two parts: lithium battery cell and protective board. Lithium battery protection board is an electronic protection device used for lithium-ion battery packs. Its main function is to protect the lithium battery pack from over discharge, overcharging, short circuit, overcurrent, and other situations.
