Hilltop also offers copper lugs for terminating the end of your cable easily and professionally. Allowing a good electrical connection between your welder & the cable. Ensuring full power is utilised. Choosing your welding cable. Choosing ...

The Tech Team Compression Crimping Tool is ideal for crimping lugs for stranded wire as used in battery cables, and cables used in electrical welding. The tool is designed to be struck with a rubber or dead-blow mallet (not a hammer) or with an appropriate clamp or vise. A spring-loaded head ensures that the lug is held firmly before compression.
