Solar Panel Cost. One of the primary appeals of DIY solar panels is that you can save money. According to EnergySage, solar panels cost an average of \$29,410 for a 10-kilowatt (kW) system. Roughly half of that cost ...

Hi all I installed Arlo solar panels, not copies, and they were working fine until recently. They have both started taking the cameras offline. Once thay are unplugged from the camera, the cameras are fine. Does anyone have a solution, or is it a case of return them. FYI I have a third camera withou...

They would only stay online for a few minutes, then go offline. When I removed the solar panels from the camera, I no longer had the issue. So the issue is clearly related to the solar panels. The odd thing is that I have had both of these solar panels hooked up to these cameras for almost two years now with no issues. I was mystified.
