

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

How big is the electric capacitor market?

The global electric capacitor market was valued at USD 21.3 billion in 2024 and is estimated to grow at a CAGR of 7.4% from 2025 to 2034. The electric capacitor industry has seen significant advancements in recent years, establishing a robust presence across diverse electronic and electrical applications.

What is the growth rate of electric capacitor market?

The electric capacitor industry from transmission & distribution end-use market is expected to grow at a CAGR of over 6.2% by 2034, driven by the need for capacitors that enhance power quality and grid stability.

How big is the global electric capacitor market?

How much is the electric capacitor market worth in 2024?

To ensure that you don't miss their response, kindly remember to check your spam folder as well! The global electric capacitor market was valued at USD 21.3 billion in 2024 and is estimated to grow at a CAGR of 7.4% from 2025 to 2034.

What is the future of the discrete capacitors market?

Looking forward, the publisher expects the global discrete capacitors market to exhibit moderate growth during the next five years. A discrete capacitor refers to a compact rechargeable battery used to store energy in the form of electric charges.

What is the high-temperature capacitor market?

The high-temperature capacitor market (i.e. for applications greater than 175 C) has been growing at a rate that exceeds traditional value growth in the capacitor industry since my firm, Paumanok Publications, first started covering this technically rewarding segment of the high-tech economy.

In the year 2023, the Global Electric Capacitor Market Growth was valued at USD xx.x million. The size of this market is expected to increase to USD xx.x million by the year 2030, while growing at a Compounded Annual Growth Rate (CAGR) of x.x%.

Asian countries under siege have lost a substantial amount of business and money due to the closure of many manufacturing operations in the region. The disease's spread has had a substantial influence on transportation, consumer ...

The German capacitor market skyrocketed to \$14.5B in 2023, picking up by 1,537% against the previous year. Overall, consumption, however, recorded a noticeable decline. ... Based on 2023 figures, exports increased by X% against 2020 indices. The growth pace was the most rapid in 2021 with an increase of X% against the previous year. Over the ...

Capacitor Types and Market Share, 2020. The types of capacitors that are used in the industrial end-use market segment include primarily plastic film capacitors, ceramic ...

The Capacitor Market is expected to reach USD 26.70 billion in 2025 and grow at a CAGR of 5.90% to reach USD 35.56 billion by 2030. TDK Corporation, Murata Manufacturing Co., Ltd., ...

In 2023, the Spanish capacitor market decreased by -1.6% to \$122M for the first time since 2020, thus ending a two-year rising trend. Overall, consumption, however, continues to indicate a buoyant increase. Capacitor consumption peaked at \$124M in 2022, and then reduced slightly in the following year.

India Capacitor Market has undergone several latest developments in recent years. For instance, the increased demand for capacitors is due to the growth of the automotive, consumer electronics, and renewable energy industries. Also, ...

The global capacitor market size was estimated to be US\$ 18 billion in 2020 and is expected to reach US\$ 25.7 billion by 2031 at a CAGR of 3.3%. Capacitors are electronic parts that store, ...

Saudi Arabia Capacitor Market Competition 2023. Saudi Arabia Capacitor market currently, in 2023, has witnessed an HHI of 1335, Which has decreased slightly as compared to the HHI of 2320 in 2017.

The high voltage capacitor market was valued at \$11.8 billion in 2020, and is projected to reach \$30.3 billion by 2030, growing at a CAGR of 9.9% from 2021 to 2030. High voltage capacitors offer simple and reliable reactive power to ...

Capacitor Types and Market Share, 2020. The types of capacitors that are used in the industrial end-use market segment include primarily plastic film capacitors, ceramic capacitors; aluminum electrolytic ...
