

If using 12V-13.2V NiMH battery pack or 11.1V Li-Ion battery pack to drive HID light, you can drive any HID bike light on the market without voltage controller; Please never drive HID light by 14.8V or higher

?Multiple Charging Ports: The portable battery power bank is equipped with 6 output ports: 1 X 12.6V DC output port, 1 X 230V/100W/50Hz AC output port, 1 X 18W Type-C port, 3 X ...

This choice should be made at the early planning stage of an installation, since the existing appliance voltage usually cannot be changed, and voltage translators will be expensive and not 100% efficient. The rated distribution values could be chosen according to the following criteria (inverter supposed directly connected on the battery pack):

Beijing Shen Dian Technology Co., Ltd. is a high-tech enterprise dedicated to the development, production and sale of GZDW, GZSD series DC screens, EPS and UPS.
