

Copenhagen energy storage protection board solution

Who commissioned Copenhagen's first urban energy storage system?

ABB today announced the successful commissioning of Denmark's first urban energy storage system. The Lithium-ion based battery energy storage system (BESS) will be integrated with the local electricity grid in the new harbour district of Nordhavn, Copenhagen. The system has been commissioned for Radius, DONG Energy's electrical grid division.

What does Copenhagen Infrastructure Partners do?

Copenhagen Infrastructure Partners is working on a portfolio of battery storage facilities in the UK. The projects will ease transmission system congestion, enable greater renewable energy integration, lower consumer costs, and pave the way for further investments in battery storage around the world.

Does Arcon Sunmark have a lid solution for pit thermal energy storage?

At the same time, Arcon Sunmark had developed their own lid solution for pit thermal energy storages. The solution differed from the concept proposed in Høje Taastrup in several ways: The lid is modular, built on the same type of liner as proposed in Høje Taastrup. Instead of weight pipes, stones are used to weigh down the center of the modules.

Who is PBJ & wicotec Kirkebjerg a/s?

The soil, concrete, and pipe contract, carried out by Wicotec Kirkebjerg A/S as a turnkey contractor. The handover was approved, and the work is covered by the general contractor warranty (5 years). The contract was carried out by PBJ as a turnkey contractor for both bottom and side lines.
