

Does it require qualifications to produce batteries

What does it mean to be a battery producer?

You are a battery producer if you have a UK business presence and you are the first person in your supply chain (including importers) to make batteries available for supply on the UK market. Producers are responsible for minimizing harmful effects of waste batteries on the environment.

Do you need a battery compliance scheme?

If you produce or market more than one tonne of portable batteries or products containing batteries or accumulators per year you must join a battery compliance scheme. Portable batteries are small sealed batteries commonly found in household appliances, such as AAA cells, mobile phone batteries and button cells found in watches.

Do I need to register a battery in the UK?

If you manufacture or import batteries or EEE containing batteries and place them on the UK market for the first time, you must: register with your environmental regulator. If you design EEE or machinery that uses batteries you must:

Do you need a BPRN if you sell a battery?

The waste batteries must go to an ABTO or an ABE for treatment and recycling. If you supply distributors or business end-users, put your BPRN on any paperwork like invoices, contracts or delivery notes. You're required to report the brand of any batteries you place on the market, as part of your registration, if this is available.

Who should register a battery?

According to Article 55 of the Battery Regulation, producers, or their authorised representatives, should register in the register of producers of the EU member state where they sell their products.

What are the rules for putting batteries on the UK market?

Rules to follow if you put batteries, including batteries in vehicles or appliances, on the UK market for the first time. Battery producers are responsible for minimising harmful effects of waste batteries on the environment, by: It's illegal to send waste industrial or vehicle and other automotive batteries for incineration or to landfill.
