

What are dry batteries?

Lithium-ion batteries and lithium ferro phosphate batteries are types of dry batteries. Lithium-ion batteries, which are extensively used in mobile devices, and lithium ferro phosphate batteries, which are frequently used in solar battery backup systems, are examples of these batteries. They don't operate well in extremes of heat or cold, and some won't work if the temperature is reduced below freezing.

How long do dry-charged batteries last?

Dry-charged batteries are unique because they contain fully charged positive and negative plates but no electrolyte. The batteries are sealed with rubber or plastic seals placed in the vent plugs. Since they contain no moisture, practically no chemical action can take place in them, meaning they will remain in good condition for up to 36 months.

How much does a dry battery cost in Pakistan?

Dry Batteries prices start from Rs. 5,020 in Pakistan. Common products available in Pakistan are Feeji 12V 12Ah Dry Battery, Narada 12V 200Ah Dry Battery, Narada Dry Battery 12V 155Ah, and Long 12V 100AH Dry Maintenance Battery (KPH100-12AN).
