

## Energy storage hot selling solar energy quotation

3 ???&#0183; We are getting quotes and noticing that some installers are MCS certified for panels and batteries and some just panels. We always have one eye on selling a house before we build or buy it and I was wondering if anyone had run up against a problem with selling a house without a MCS certificate for the storage battery. Thanks

Larger, solar-friendly places like California have higher populations interested in and moving forward with solar-plus-storage systems, so naturally, the popularity of Enphase's battery in these states drove high volumes for the product in solar quotes and installations on a nationwide scale.

Warning! GuruFocus has detected 8 Warning Signs with SEDG. It will help the company trim operating costs by an estimated \$7.5 million for the financial year and achieve full cost savings by mid-2025.
