

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

What's happening at London's Energy Storage Summit?

There is something for everyone at the Summit. one of London's most exclusive nightclubs. All delegates are invited to attend this event, hosted by Envision, on Tuesday 18 February - get ready for good vibes and a great playlist! This is an event where you are guaranteed to meet over 2000 delegates from across Europe's energy storage value chain.

How much energy storage does the EU need?

Over the next five years, the EU needs to achieve a mammoth 187 GW total installed storage capacity to keep on track. Of the 5GW currently under construction in GB, 3.5GW of this is set to come online in 2024 with pipelines continuing to expand into 2025. These are just some examples of the urgent need for energy storage deployment across Europe.

Can long duration electricity storage help decarbonise our energy system?

We're consulting on the policy framework to enable investment in long duration electricity storage. Long duration electricity storage can provide an important contribution to decarbonising our energy system. For example, it can store renewable power and discharge it during periods of low wind.

Event info: The Energy Storage Investment Awards recognises and celebrates outstanding achievements in energy storage development, investment, and finance in the renewable sector. This awards programme - organised by Tamarindo, who also deliver the Wind Investment Awards, is the benchmark for excellence, raising the profile of winners and ...

During the panel, the speakers covered several key topics: the role of the EU programs, primarily InvestEU, that help market players achieve the necessary funding to start new electricity ...

The must-attend 9th Energy Storage Summit will shed light on how the industry is shaping European energy

storage deployment, innovation, investment and policy, and aims to accelerate the industry by bringing key players together ...

This response confirms the government's intention to create a cap and floor scheme to unlock investment for Long Duration Electricity Storage (LDES) projects, our ...
