

How do I apply for free solar panels?

To apply for free solar panels and other energy-saving improvements, check your eligibility directly on our website. If you qualify, you can have solar panels installed at no cost. You may also be eligible for additional improvements like loft and wall insulation, air source heat pumps grant (ASHP), and double glazing as part of the ECO4 scheme.

Can I get free solar panels in the UK?

The programme aims to reduce energy costs and improve comfort for households with low energy performance ratings. You may be eligible for free solar panels if you meet all of the following criteria: How much do solar panels cost in the UK with a government grant? Depending on the grant, you can get partially or fully funded solar panels.

Can you get free solar panels under a government scheme?

Applying for free solar panels under a government scheme provides UK households with an affordable way to cut electricity bills and reduce carbon emissions. With grants like ECO4, eligible households can access not only solar panels but also energy efficient systems like ASHP and insulation to further lower energy costs.

Are there free solar panels?

In short, there is largely no such thing as "free solar panels" in terms of government grants that will cover 100% of the installation costs. You can earn money from your solar panels via the Smart Export Guarantee. The VAT reduction scheme means you will pay 0% VAT on new solar panels, which are set to run between April 2022 and April 2027.

Can you get free solar panels in Scotland?

The ECO4 scheme can potentially get you free solar panels (or allow for partial payment), while other schemes like Home Energy Scotland can offer grants of up to £10,000, which can cover the cost of a 4kW system. The yearly return on investment will be about £660 to £1,005, depending on the size of your home and solar panel system.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.
