

Should I buy capacitors from China?

Don't ever buy capacitors from China. Especially top brands from the post above. In addition to those there are: Vishay and Kemet are not "premium" grade electrolytic manufacturers. Kemet makes fine poly's and Vishay makes fine ceramic caps. I would not recommend either as first choice for Electrolytics.

Where can I buy a capacitor?

Capacitors seem to be one of those things that is counterfeited a lot, so definitely want to buy from good sources like Digikey, Mouser etc. Avoid Ebay, Aliexpress, Amazon etc as you don't know what you're getting. Re: Capacitor brands? Vishay and Kemet are not "premium" grade electrolytic manufacturers.

Are there any good capacitor brands?

There are many good capacitor brands. Not in particular order.. I personally prefer Rubycon but for reasons of availability do sometimes use Panasonic/nichicon. There are also many other ok brands but i prefer the above. Re: Capacitor brands? Don't ever buy capacitors from China. Especially top brands from the post above.

Are Kemet and Vishay capacitors the same?

Kemet also makes fine tantalum and ceramic capacitors. Vishay makes a lot of other fine stuff as well, like semiconductors and precise resistors. But you will rarely find Vishay and Kemet electrolytic caps in consumer equipment. Most of those go into industrial, telecommunication, automotive. Good to know... Re: Capacitor brands?

Are Mallory capacitors good?

FWIW,Mallory made some great aluminum electrolytic capacitors for PSU/UPS types of applications. Fresh units are under the CDE label as Mallory became Cornell Dublier. Might be helpful if you manage to locate NOS Mallory capacitors. Yeah seen them in some high end PSU/UPS applications. Reliability is rather good far as i understand.

What is the difference between Vishay & Kemet electrolytic caps?

Kemet makes fine poly's and Vishay makes fine ceramic caps. Kemet also makes fine tantalum and ceramic capacitors. Vishay makes a lot of other fine stuff as well, like semiconductors and precise resistors. But you will rarely find Vishay and Kemet electrolytic caps in consumer equipment.

OSSUR EUROPE BV is the leading Capacitor,Power supplier in Iceland, constituting 53% of the total with 37 shipments. Following closely is NEW BRIGHT ...

Yeah, Miflex caps are huge, but they are the best bang-for-the-buck copper foil capacitor out there. Anything else will still be large, smaller but more expensive. Clarity Caps have a good balance between size and

performance. Rike Audio S-CAP 2 are also a good choice, they should be more reasonably sized at 2.2uF if you want a PIO cap.

Anyone who has traveled around Iceland during the summer will be quite familiar with the sturdy and proud Icelandic sheep, which roams around the countryside freely before being rounded up ...

List of Capacitors in Iceland Companies, suppliers, manufacturers in Iceland. Business information about company profile, Email, Tel, Phone, Fax.G. Hermannsson Ltd.

Using a general-purpose capacitor in a circuit that needs a high ripple, low-impedance capacitor is a prime example of where things can go bad quickly. A good cap in a circuit with good design margins should last years without issues, as the design will accept some degradation of the capacitor over time before failing.

Computer recording With locations in Reykjavik and Akureyri, T&#246;lvutek is a market leader in Iceland for computer hardware for homes and smaller businesses.

Visiting the Blue Lagoon was our favorite thing to do in Iceland with kids. It's not cheap to visit to the Blue Lagoon from Reykjavik, but chances are good that the family memories will ...

Vishay and Kemet are not "premium" grade electrolytic manufacturers. Kemet makes fine poly's and Vishay makes fine ceramic caps. I would not recommend either as first ...

Throughout Iceland's history, whales have had, in some cases, positive connotations, such as the Icelandic word for a stroke of good luck, "hvalreki," literally translating to "beached whale." That's because, in the harsh conditions of medieval Iceland, where food was hard to come by, ...
