

# Household lithium battery electric chain saw installation

How many batteries does a cordless chainsaw have?

This cordless tool comes with two 20V 1500mAh batteries and chains. It features an easy-grip handle for one-handed use, a tool-less chain tensioning system, and a compact design suitable for tight spaces. The chainsaw includes a safety lock to prevent accidental activation, ensuring safe operation during use.

How to use a chain saw with a kickback?

Place your right hand on the rear handle and your left hand on the front handle, with your thumbs and fingers encircling the chain saw handles. A firm grip and a stiff left arm will help you maintain control of the saw if kickback occurs. 2. Make sure that the area in which you are cutting is free of obstructions. Do not let the

Can you use a chainsaw in an explosive atmosphere?

o Do not operate chainsaw in an explosive atmosphere, such as in the presence of flammable liquids, gases, or dust. Power tools create sparks that may ignite the dust or fumes. **W A R N I N G**

How do you stop a chainsaw?

o Press and hold the switch lock. This makes the trigger switch operational. o Press and hold the trigger switch, release the switch lock, and continue to squeeze the trigger switch for continued operation. Stopping the chainsaw: **NOTE:** Once the trigger switch is released, the mechanical brake will engage stopping the chain.

How do you install a chain on a bar?

o Hold the chain in position on the bar, and place the loop around the sprocket. o Fit the bar flush against the mounting surface so that the bar studs are in the long slot of the bar.
