

How do I register a solar panel?

Here's how: Visit the British Gas Renewable Energy Page: Look for the section dedicated to solar panel registration. Create an Account or Log In: If you're a new customer, you must create an account. Existing customers can log in with their credentials.

How do I register for a solar PV scheme?

You must register with SEAI as a company or installer for the Solar PV Scheme. The domestic SPV Scheme has two types of registered professionals. If you are applying to register on the domestic solar PV scheme you can register as a Company, register as an Installer or register as both.

What if I don't register my solar panels?

If you're a shared owner or a homeowner and you haven't registered your solar photovoltaic (PV) panels, and they were installed after 14 January 2016, you can apply to your electricity supplier to get the 'Feed-in tariff' (FiT) payments. This is in effect a grant from the Government according to how much electricity your panels are generating.

Should I Register my solar panels with British Gas?

Registering your solar panels with British Gas not only formalises your shift towards renewable energy but also enables you to reap the full benefits of your investment. This includes eligibility for Feed-in Tariffs (FITs) or Smart Export Guarantee (SEG) payments, depending on when your system was installed.

How do I Register my solar panels with MCS?

MCS is a UK-based certification scheme that confirms the quality and reliability of renewable energy technologies. To register your solar panels with MCS, you need to contact an MCS-certified installer. The installer will inspect your solar panels and provide you with a certificate confirming that they meet MCS standards.
