

How many multilayer ceramic capacitors has Murata sold?

The total number of multilayer ceramic capacitors Murata has sold overall is close to nine trillion and still increasing! If nine trillion 0603 Size (1.6 x 0.8mm) capacitors were lined up one next to the other, they would stretch from the Earth to the Moon and back almost 18 times!

Where can I buy a ceramic capacitor?

Only the "my Murata" Ceramic Capacitor Site (registration required). Murata offers the No.1 most abundant lineup of Ceramic Capacitors, and proposes ideal solutions. You can refer Products search, Lineup, Examples of Problem Solving, PDF Catalog, and Other Links.

Where are Murata capacitors made?

Murata Electronics (Thailand) Ltd. manufactures lead type disk ceramic capacitors and resin molding SMD type ceramic capacitors. Northern Region Industrial Estate 63 Moo 4, Tambol Ban Klang Amphur Muang, Lamphun 51000, Kingdom of Thailand Thinner, smaller, and more accurate. Murata continues to create leading-edge capacitors.

Is Murata a good capacitor?

The highest quality in the world proves that Murata is No. 1. Murata capacitors are used in hybrid vehicles and electric vehicles by the leaders of the coming generation as well as in spacecraft instruments where high reliability is demanded.

Ceramic multilayer capacitors comprise of multiple layers, alternating between ceramic insulating material and metal conducting layers

The operating voltage for capacitors must always be lower than their rated voltage. PCB Design 1. Design of Land-patterns When the capacitors are mounted on a PCB, the amount of solder at the terminations has a direct effect on the performance of the capacitors. The greater the amount of solder, the higher the stress on the capacitor.

In particular, multilayer ceramic capacitors are essential for creating miniature and high-performance electronic devices. TAIYO YUDEN offers a broad lineup of small size, low profile, high capacitance value, and high reliability products from the initial materials used to development and production to meet customer needs.
