

Outdoor power supply scrapped battery pictures

How are uninterruptible power supplies recycled?

Uninterruptible power supplies are generally stripped down in our workshop once collected. Metals and plastics are recycled, including electrical cabling, capacitors and fans. PCBs and components are disposed of by specialist recycling companies according to national guidelines covering WEEE and RoHS.

How are UPS batteries recycled?

Once removed from site, the batteries are sent to specialist battery companies who can strip down the batteries into their separate components of plastic cases, metal plates and acidic electrolyte, for recycling. The recycling of UPS batteries is highly regulated under the Waste Electrical and Electronic Equipment recycling (WEEE) directive.

Can a repurposed laptop battery make a home charging system?

One person has done just that, with a remarkable home charging system created by repurposing over a thousand used laptop batteries. This remarkable feat has been running successfully for an astonishing eight years without a single battery replacement, as detailed by the creator, Glubux, on the online forum Second Life Storage.

What happens if a UPS battery is damaged?

Occasionally, a battery experiences stresses that can cause the case to swell, crack, or lose a cap. UPS Batteries in this condition are considered "damaged". These damaged batteries are subject to more stringent regulations than are "intact" batteries. Damaged UPS batteries pose the risk of hazardous material release.

Are UPS batteries dangerous?

Intact UPS batteries are no more dangerous than other data centre equipment when handled correctly. However, an intact spent battery is still considered hazardous waste and must be treated as such according to national regulations. Occasionally, a battery experiences stresses that can cause the case to swell, crack, or lose a cap.

Can I dispose of a battery without a charge?

By partnering with a reputable UPS supplier or battery manufacturer, most battery owners can safely dispose of their spent batteries free of charge. Our team of on call electrical UPS engineers and electricians can deliver, position and electrically install and commission the UPS or relocate to a new site if required with our relocation service.

The new Power Adapter for the Wireless Outdoor Camera is not only better shielded from the elements, and specifically sized to plug into the Outdoor Cam, but also has a slightly different output at 5v/2a. So we would not recommend just using the existing power adapter from the Indoor Camera.
