

Best usable capacity: SunPower SunVault solar battery
The SunPower SunVault is the best solar battery storage device if your main concern is maximising usable capacity. As one of the most popular and well-known producers of solar batteries, SunPower's systems are known for their durability and wide range of systems with differing energy capacities.

The sonnenBatterie 10 is the perfect all rounder smart solar battery storage system for you if you're looking to integrate it into an existing PV system or build a new system. Because this battery comes in 3 different sizes (5.5kWh, 11kWh, or 22kWh), you're likely to be able to find one that fits your energy demand.

Just because we'd recommend Hanchu ESS LVES Home L Series for most homes because we truly believe it is the best overall solar battery storage solution on offer in the UK, doesn't mean there aren't other solar batteries out there that do one or two things incredibly well...

Solar storage batteries cost from around £2,500 to well over £5,000. To help you spend your money wisely, our team of researchers analysed 27 market-leading batteries. We compared them on key factors such as capacity, warranty and value for money. Find our top seven below. Are you in the market for solar panels and a battery?

The best solar batteries for off-grid solar systems in the UK are the Tesla Powerwall 2.0, LG Chem Resu Prime, Enphase Encharge T Series, and sonnenBatterie 10. What is the longest lasting solar battery? Warranty is a good measure of the quality of some of the best of the solar batteries.

A solar PV system with a storage battery cuts your annual electricity bill by hundreds of pounds more than solar panels alone. If you have a large enough storage battery, coupled with a home EV charger, you can even run your electric car using the clean energy produced by your solar panels.
