What is battery recycling Conference & Expo 2024?

Battery Recycling Conference & Expo 2024 is the must-attend event for battery producers, recycling companies, critical [...] Congress and Exhibition "Lithium Latin America" is the only international professional event for top-level networking [...]

Are lithium-sulfur batteries the future of energy storage?

Lithium-sulfur batteries are envisaged to enable energy storage devices with high specific energy at low material cost. The recent research provides significant progress in terms of materials for active and passive cell components as well as on understanding of mechanisms finally leading to improved Li-S cell performance.

What is the Energy Storage Summit 2025?

2025 will see the 10th Anniversary of the Energy Storage Summit which launched in 2016. 2025 is set to be a pivotal year for the global energy transition, as we reach the halfway point in a signifi... Join Europe's largest and most international exhibition for batteries and energy storage systems!

What's happening at London's Energy Storage Summit?
