Who sells Pramac generators in the DRC?

Congo Energy is the exclusive distributor of PRAMAC products in the DRC, offering a wide range of generator sets, from 10 to 4,000 kVA, as well as after-sales service. As an official partner of Schneider Electric, Congo Energy is certified to distribute and install equipment.

What is the government's vision for power generation in Congo?

The government's vision is to increase the service level to 32 percent by 2030. Lack of access to modern electricity services impairs the health, education, and income-generating potential of millions of Congolese people. Most power generation development is directed and funded by mining companies seeking to power their facilities.

What percentage of Congolese people have access to electricity?

Less than 10% of the Congolese population has access to electricity, 35% in urban areas (50% in Kinshasa) and less than 1% in rural areas. There are also strong regional disparities in access to electricity. But, Congo has an immense development potential thanks to abundant hydrological and solar resources.
