

What is solar panel maintenance & repair?

Solar panel maintenance and repair are crucial aspects of ensuring the longevity, efficiency, and cost-effectiveness of your solar panel system. At Skylar Solar, we take pride in offering professional services, tailored to home and business owners, to keep your solar panels functioning optimally and maintaining peak performance.

How important is a solar panel service?

An annual solar panel service and regular solar panel maintenance are important. An issue with your solar PV (photovoltaic) system, whatever the cause, may not be noticeable to you right away, but will have a huge impact on your electricity bill and any SEG payments.

Why is regular solar panel maintenance important?

Regular solar panel maintenance is essential to maximise the efficiency and lifespan of your solar power system. By ensuring your solar panels are clean, free from debris, and functioning at their best, you can reap the benefits of lower energy bills, reduced carbon footprint, and a reliable power source for years to come.

How much does a solar maintenance package cost?

Our maintenance package ensures that your solar panels are performing to the best of their ability, maximising returns and keeping your energy bills and carbon footprint as low as they can possibly be. For a monthly fee of £22.99, solar PV owners can get full protection for solar repairs and servicing on their system.

Do solar panels need regular maintenance?

Regular maintenance for solar panels typically involves cleaning to remove dirt and debris, inspecting for physical damage, and checking the electrical system for any faults. This process ensures the panels operate efficiently and helps in identifying any issues early on, preventing more significant problems down the line.

How do I keep my solar panels working?

To keep your PV solar systems working with maximum efficiency, maintaining solar panels is vital. Regular checks and preventative maintenance or repairs can help ensure that your solar panels are working and generating at their optimum level.

Whether you had your system installed with ourselves or not, we are always available to help with solar panel service and repairs. T : 0800 201 4527 T : 01257 443 377
