

How easy is it to replace a battery on a Sena phone?

In Sena's defense, at least the battery was easy to remove and replace, unlike the Cardo Packtalk unit I'll describe next. Unfortunately, the Sena phone tech never mentioned the possibility of a battery failure, and Sena does not offer this simple service. Presumably, they expect me to chuck the old unit and buy a new one.

What should I do if my Sena battery is swollen?

If your battery is swollen, take appropriate precautions. This guide describes how to open your Sena and remove most of the device to access the battery. For optimal performance, you should calibrate your battery after completing these instructions: Charge it to 100% and let it charge for at least two more hours.

How do I calibrate my Sena battery?

This guide describes how to open your Sena and remove most of the device to access the battery. For optimal performance, you should calibrate your battery after completing these instructions: Charge it to 100% and let it charge for at least two more hours. Then use your Sena until it turns off due to a low battery condition.

Can you replace a battery on a Sena smh10?

However, you can perform a DIY battery replacement and save what it would cost to replace the whole unit. Some communication devices, such as the Sena SMH10 and the Sena-made Schuberth SC1, have external battery packs. Replacement of an external battery is easy--you don't need me to explain it to you.

How long does a Sena 30K battery last?

My Sena 30K is now 4 years old and has about 400 charging cycles behind it. Meanwhile, the battery only lasts 2 hours when I have my phone plugged in to listen to music and my mesh intercom activated at the same time. With this guide, you can replace your battery and restore your Sena's full performance.
