

How many MUYI sunrooms are there in China?

As a leading enterprise of intelligent sunroom in China, we are constantly innovating and developing over 10 years, here are nearly 200 distributors, 70 MUYI Exclusive Stores in all over China, and has become the China famous Enterprise of Sunroom Production. Q: What is the purpose of a sunroom?

Do sunrooms cost a lot?

Sunrooms are more like living rooms or dining rooms made of glass or PVC and cost significantly more, adding to your energy bills. As one of the most professional sunroom manufacturers and suppliers in China, we're featured by customized products with low price.

What is a typical sunroom?

A typical sunroom is a glassed-in room attached to the house with accessibility from the inside. It allows in as much natural lighting as possible and serves as an additional living space when the weather is mild. Typically, a sunroom isn't connected to the central heating and air conditioning in the home, so its climate is closer to the outdoors.

What is a sunroom frame?

The frame is the underlying structure of the sunroom that supports the walls, roof, and windows. Sunrooms can be framed from various materials, including the following: Aluminum: This is a popular choice because it's affordable and lightweight. It requires little maintenance because it's durable and rust-resistant.

Does a sunroom have air conditioning?

Typically, a sunroom isn't connected to the central heating and air conditioning in the home, so its climate is closer to the outdoors. Three-season sunrooms generally do not have HVAC installed and therefore are only usable during the spring, summer, and fall, as winters will be too cold for a comfortable climate.

What is the best material for a sunroom?

Aluminum: This is a popular choice because it's affordable and lightweight. It requires little maintenance because it's durable and rust-resistant. However, aluminum framing can make it challenging to regulate the temperature inside your sunroom, so it's recommended for mild climates.
