

What is solar street lighting?

Solar street lighting is an excellent solution for temporary or essential works lighting. Solar lights, using redeployable solutions such as the below concrete blocks, can be installed quickly without the need for a mains connection, providing immediate illumination. This flexibility is beneficial for essential work or emergency repairs.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

How do solar-powered street lights work?

These systems use solar panels to convert sunlight into electricity, which is then stored in batteries or used immediately to power light fixtures such as LEDs (Light-Emitting Diodes). Solar-powered street lighting typically consists of the following components:

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

Is solar street lighting a viable solution in the UK?

Solar street lighting is becoming an increasingly attractive and sought-after solution in the UK.

How do I choose the right solar street lighting?

Choosing the right solar street lighting can dramatically reduce installation costs but requires careful consideration. Here's what to look for: Solar Panel: Check panel power (Watts), size (M²), and efficiency (%). Higher values generally mean better performance. Solar Irradiance: Know the solar power available in your location.

The SOLARIS is a high quality solar light for professional lighting applications in outdoor areas: Residential and secondary roads; pedestrian and cycle paths; car parks; bus stops; parks.....etc Reliable Lighting Experience gained from numerous projects and use of high quality components are combined in the SOLARIS.T
