BES" range of solar motorised valves includes solar diverter valves and solar zone valves that can be used in solar and heating circuits. Solar Valves The Thermostatic Solar Valve Kit with Bypass is the most popular solar valve available in this selection - it diverts potable domestic hot water from a solar cylinder to control the water temperature.

The thermostatic mixing valve is used in solar thermal systems that produce hot water for domestic purposes. It is designed to maintain the preset temperature of the mixed water delivered to the user outlet, when there are variations in the temperature and pressure of the hot and cold water at the inlet, or in the drawn-off flow rate.

Hybrid electronic mixing valves; Spare parts for electronic mixing valve with thermal disinfection, flanged connections - 230 V; ... Thermostatic mixing valve for solar thermal systems. Thermostatic mixing valve for solar thermal systems: Solar thermostatic mixing valve for ...
