

What types of film capacitors are available?

We offer a broad line of AC and DC rated film capacitors for industrial, military and medical applications. These include standard AC motor run types and custom DC pulse applications. Only the industry's highest grades of film dielectric are used to ensure the best possible performance.

Which is the largest manufacturer of plastic film capacitors in India?

The present capacity of 1.2 billion pcs/annum makes Deki the largest manufacturer of plastic film capacitors in India. Its capacitors are currently exported to Europe, Hong Kong, China, Middle East, Malaysia, Philippines and South Korea. Deki has been growing at an average annualised growth rate of 29 per cent year on year since 1989-90.

Who makes plastic film capacitors?

Desai Electronics, popularly known as DEC, manufactures plastic film capacitors at its state-of-the-art plant and machinery with an installed capacity of 200 million pieces per annum. DEC markets its capacitors directly to OEMs and through a network of distributors all over India.

Can polypropylene film capacitors replace electrolytic capacitors?

They can replace electrolytic capacitors in applications where the voltage is above 500V. RS have a great range of capacitors including these polypropylene film capacitors in various capacitance, voltage ratings and tolerances for all your electronics needs.

Where can I find high quality capacitors in South Africa?

Discover the power of efficient electrical performance with our premium capacitors. At Toolspare, we stock and have the largest range of high-quality capacitors in South Africa designed to meet the demands of various applications.
