

What is Norway's first commercial battery factory?

Norway's first commercial battery factory Morrow plans to build a battery factory in Arendal, which will start production in 2023 and be fully operational by 2028. This will be the first commercial battery production plant in Norway.

Can battery production create green jobs in Norway?

Battery production can create new, green jobs and more export legs for the Norwegian economy to stand on. We need that now, says CEO of NHO Ole Erik Almlid. Agder Energi and Bjørn Rune Gjelstens NOAH AS are two heavy industrial partners who are now starting Morrow Batteries.

Who is Morrow batteries?

Morrow Batteries is a Norwegian battery company with the goal of developing and producing the world's most cost-effective and sustainable batteries. Norway's first commercial battery factory Morrow plans to build a battery factory in Arendal, which will start production in 2023 and be fully operational by 2028.

Can Sweden build a battery factory?

Sweden's Northvolt's planned battery factory has already acquired VW as an owner and is valued at close to 20 billion Swedish kroner. The potential for establishing more battery factories is enormous. The challenge is that current battery production is far from sustainable. Not just because of the mineral use.

Does Norway have a battery value-chain?

An integrated battery value-chain is critical to succeed in the global battery industry, and Norway is leading that race," says Morrow CEO Lars Christian Bacher.

Why do we need batteries in Norway?

"Battery production can create new, green jobs and more export opportunities for the Norwegian economy. And that's exactly what we need right now," says the CEO of the Confederation of Norwegian Enterprise (NHO), Ole Erik Almlid. Agder Energi and Bjørn Rune Gjelsten's NOAH AS are two industrial heavyweights that are now launching Morrow Batteries.

The Norwegian company Morrow Batteries is going to establish a new gigafactory, which will be located in the strategic Agder county.
