

Where are the stores selling solar cells in the EU

Will EU support solar PV Manufacturing in Europe reshape global market growth?

The announced support schemes for solar PV manufacturing in Europe, attempting to boost EU's domestic manufacturing capacities and rebuilt its competitiveness in the global PV value chain, are encouraging, but their realisation is not keeping up with global market growth.

Where can I buy a new cell?

The only larger supplier in the EU for cells I can recommend at this time is NKON. There are smaller companies (even some here in Finland - no affiliation) but they tend to be more expensive. They are a good source if you need one or two cells to replace a broken cell or something...

What is Sun store?

sun.store is a rapidly expanding online platform, a marketplace dedicated to the photovoltaics industry. The marketplace where installers can buy all the PV equipment they need - modules, inverters and batteries. We combine offers from hundreds of sellers across Europe, so it is easy to search and compare availabilities and prices.

Is the EU PV value chain ready for accelerated development?

While the EU PV value chain is in a good position regarding polysilicon manufacturing, backsheets, contact materials, inverters and balance of system components, an accelerated development of new capacities for wafer, cell and solar glass production is required.

Is Sun store a good platform for distributors?

“Sun.Store is an exceptional online platform for distributors. Its intuitive design makes both product showcasing and finding desired items effortless. Direct communication and secure transactions make this platform a valuable resource for any distributor seeking online success. Highly recommended!”

Is the EU PV market facing a significant competition from China?

Photovoltaics is the fastest-growing technology for electricity generation from renewables. This report describes how the EU PV market is facing a significant competition from China and other countries strongly supporting the sector.
